

Decision With Insight

Logical Intelligence Test System (LITS) an online test system where all kinds of questions (Objective/Subjective) can be created dynamically & assigned to examinees. An examiner can assign test time span, number of questions, type of questions, and more while assigning a test to an examinee. The online test timer measures & ends the test after the assigned time.

FEATURES

- ➔ Web based application and can be accessed from any location over internet (i.e. candidates need not come down to office)
- ➔ Administrator can create different users easily i.e. examiner, examinee
- ➔ All kinds of questions can be created like multiple choices, Yes/No type, subjective, visual or figures, and more
- ➔ Exam session automatically expires after starting the test. i.e. Candidate can login as many times before taking up the exam, but once he/she starts it, the login ID expires and candidate cannot login henceforth
- ➔ Extensive reports on results can be viewed – score, attempted answer, time taken for each question/section, and more

HOW IT WORKS

- ➔ The question banks and question sets are prepared once and can be used again and again
- ➔ Examiner assigns exams to a candidate/examinee
- ➔ Examinee/candidate can log into the system over internet using given ID/PWD and examination site link from any location
- ➔ Once the exam is started or taken the answers and automatically stored and exam session expires.
